

THE ARTS

Explore, create, express yourself!

The Arts offer a wonderful opportunity to learn more about yourself, as well as other creative individuals and the work they produce. Today's world needs individuals who can think creatively, be innovative and offer new solutions. The variety of arts courses offered provide a vehicle to develop these skills. The arts will challenge you to grow personally and you will learn new ways to express your ideas.

Regardless of your future career destination, arts courses will enhance and enrich your life. Choose an arts course and enjoy the challenge of creating, performing and experiencing subjects rich in personal development and fulfillment. Enrich your life and stir your imagination!

Mr. Matt Sheahan, Arts / Languages Department Head
